Tracktion Waveform Shortcuts Cheat Sheet

by Bill Smith (Naenyn) via cheatography.com/21154/cs/15268/

Welcome & Conventions

Welcome! This cheat sheet describes common mouse and keyboard shortcuts for Tracktion Waveform. Please note that these shortcuts are written for macOS, using the **command** (**cmd**) key where indicated. On a Windows system, you'd use your **control** (**ctrl**) key. I hope you find this guide useful. Feel free to provide feedback. Enjoy!

<required>	<>'s indicate some sort of key combination is required. eg: <number> = type any numbers
[optional]	[ ]'s indicate something is optional
bold	bold indicates a keyboard key
+	plus indicates holding a combination of keys / mouse buttons / performing movements
|	pipe indicates OR. eg: **a** | **b** = press key a or key b
